Enfield Feby 24. 1836

Mr A. A. Phelps.

Faber F. Taylor

14

Dear Sir

Two days since I received a letter from you, requesting me to secure a place for you or some other agent of the Am An Sl Society, to lecture in to the people in this town. I have taken the subject into consideration, and should not think it advisable for you to come here, it would cause an excitement which might be allayed for years. I should regret to have the subject agitated here for I fear it would do more harm than good. I have conversed with 2 or 3 of my particular friends and they fully concur with me in the above

Your Respectfully

Fabez F. Taylor
